 - Opt-out disclaimer
 - California's outbreak that recorded 801 cases with 561 cases of the neurological form of West Nile, and 31 deaths, could have been reduced if they would have been willing to perform an aerial adulticide application. I don't want to paint ourselves into a corner where we feel like we can't provide an aerial application. I'm afraid with the current way we are handling opt-out requests we may be opening ourselves to legal repercussions if we did spray them. I think we may need a stern disclaimer that we give out to every person on the opt-out list and everyone that is asking to sign up.

Any person needing special accommodations to participate in the above noticed meeting should contact the Mosquito Abatement Director 2 days prior to the meeting at 354-2703 or 230 N. Main, Driggs ID 83422
